Dublin – Ireland

Photography has always been part of my life. Even when I was a child I accompanied my grandfather to the darkroom. During my Journalism degree at my University back in Brazil the study of photography and art history always intrigued me, but I never thought I would make it my main line of work. But it happened when I came to live in Ireland ... At first, I loved shooting landscapes and architecture, but with time registering the emotions of people through my lens became my greatest pleasure.

On my website I show some pictures of my work. If you are interested in my photographic style it will be my pleasure to capture your most important moments for you. I love doing weddings, family or baby photos, engagements, birthdays and beauty portraits. I want to capture the emotions, the lightness of the soul, the true beauty of feelings and expressions.

My photography session is a natural, relaxing and special time. I always try to let people super comfortable. I am only an instrument to capture their magic moments, and my client is the main actor of feelings to be registered.

I hope to be part of your life and capture your **Magic Moments for Eternity.**
